

How to create a booking Widget for your Sofitel Legend Minisite?

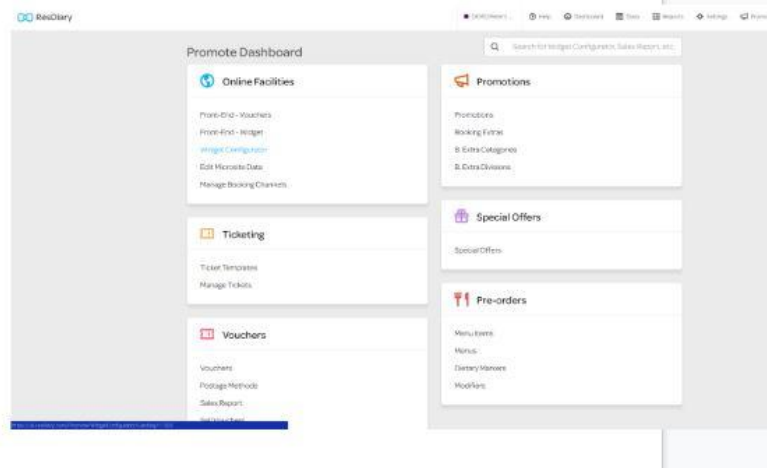

You can see a live example of the final widget [here](#)

NB: All the guide below require a **Manager** access to the diary.

1- Open your diary, go to the **Promote** section

2- Click on **Widget Configurator** in Online Facilities

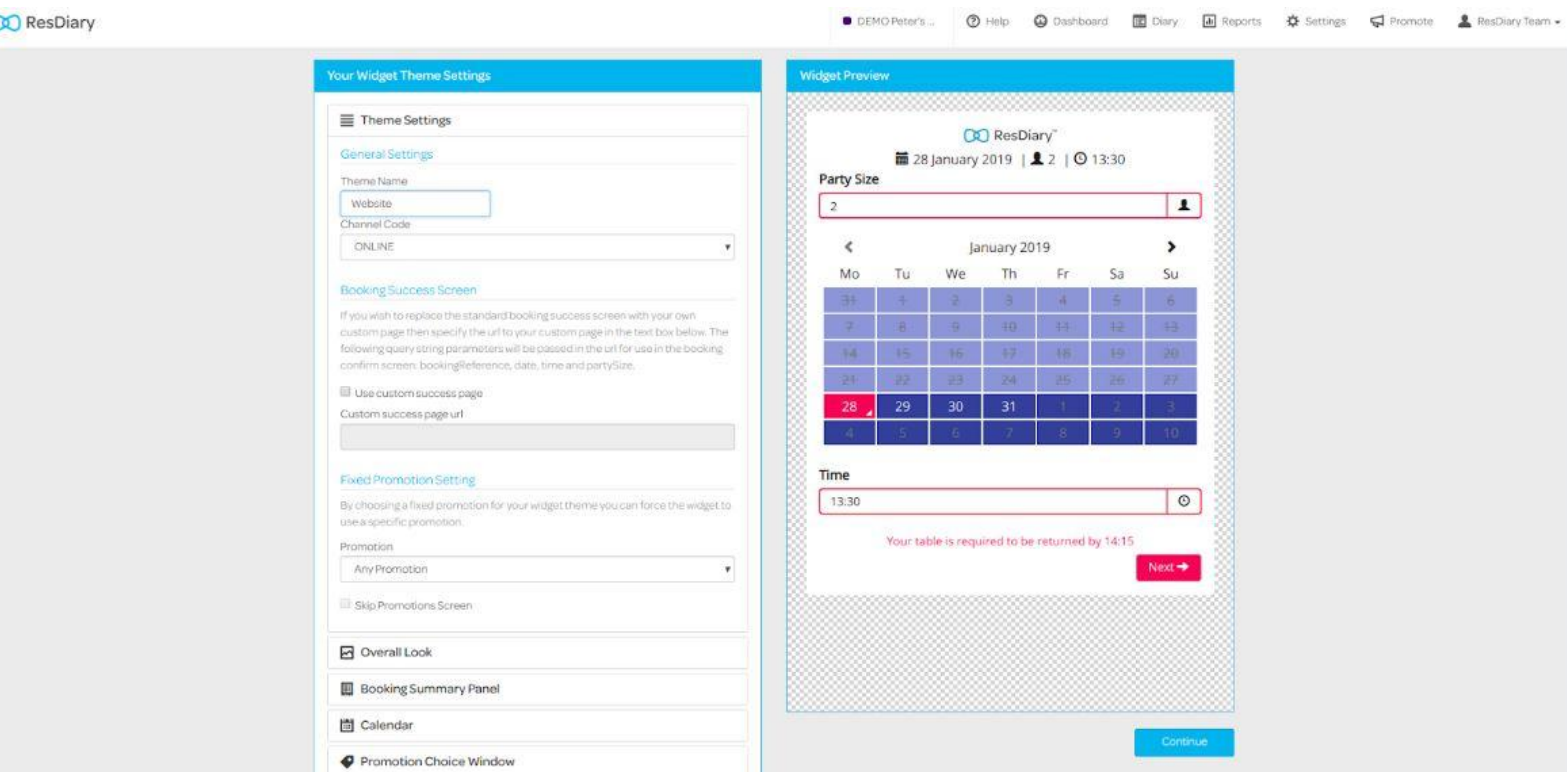

3- Click on **Create New Theme** then Select '**Standard**' widget

4- Rename the New widget '**Website**' to be able to identify it later ; leave the channel to **ONLINE**

5- Edit the ResDiary's widget default template as following :

NB: You can copy and paste the colours codes from this .pdf

How to create a booking Widget for your Sofitel Legend Minisite?

In order to respect the graphical charter of your brand please apply the colors mentioned below

Overall look

The screenshot shows the 'Your Widget Theme Settings' interface for the 'Overall Look' section. A blue arrow points from the 'ResDiary' logo in the 'ResDiary Branding' section to the 'Overall Look' settings panel. The settings include:

- ResDiary Branding:** Logo selection (light blue and dark blue).
- General:** Background Colour (#ffffff), Text Colour (#161616), Table Return Notice Colour (#50057), Border Radius (slider), Font (Open Sans).
- Button Appearance:** Button Colour (#50057), Button Font Colour (ffffff).
- Booking Summary Panel:** Calendar, Promotion Choice Window, Dropdown and Input Boxes, Contact Details Settings, Custom Logo.

The 'Widget Preview' on the right shows a booking form with a party size of 2, a calendar for January 2019, and a time slot of 13:30. A 'Next' button is visible at the bottom right of the preview.

Booking Summary Panel

The screenshot shows the 'Your Widget Theme Settings' interface for the 'Booking Summary Panel' section. A blue arrow points from the 'Booking Summary Panel' settings panel to the 'Widget Preview'. The settings include:

- Booking Summary Panel:** Background Colour (#ffffff), Text Colour (#161616), Border Radius (slider).
- Time Slot Options:** Divide Time Slots by Service.
- Children and Infants Options:** Show Children Option, Show Infants Option.
- Area Options:** Allow the diner to specify an area when making a booking, Include an 'Any Area' option in the list of available areas.
- Calendar:** Promotion Choice Window, Dropdown and Input Boxes.
- Contact Details Settings:** Custom Logo.

The 'Widget Preview' on the right shows the same booking form as above, but with the 'Next' button highlighted in red, indicating the current step in the booking process.

6. Click on **Continue** and select the **Standard** layout

ResDiary

Seasons Resto, Help, Dashboard, Query, Reports, Settings, Promos, ResDiary Team

Standard (highlighted with red square): This standard widget looks simple but is easy to use through the widget builder process from selection of date, time and party size through to custom details and promotion selection. The responsive design means it automatically adjusts and adapts itself to look great on any device size.

Field Set: Field sets have dimensions, allowing you to embed in your dashboard website.

Mini-Layouts: This mini-Layout widget is designed to be extremely responsive on all devices.

Mini-Form: This mini-form widget is perfect for date selection, day of the week and party size. It is related to the ResDiary widget for your own custom booking page.

Standard Three Months: Standard Three Months is based on the standard widget. However, it allows the customer to select date, time and party size before being taken to the custom booking page.

7. Get the code to embed in the website :

Select the link of the widget as per the red square beside (from https to the end of the 4 digits code, excluding '?')

Copy the link and replace instead of **'widgetwidgetwidget'** in the following code :

```
<iframe src="widgetwidgetwidget"
allowtransparency="true" frameborder="0"
style="width:100%; border:none; max-width:
540px; height: 640px; "></iframe>
```

Export Your Widget

Include jQuery

Note: If you do not include a reference to jQuery and JQueryUi above the widget on your page, the widget will not load correctly.

Copy and paste the code below into your website to use your custom widget

```
<script type="text/javascript" src="https://booking.resdiary.com/bundles/jquery.js"></script>

<script type="text/javascript">
$(function() {
  var widgetFrame = $("#rd-widget-frame");
  widgetFrame.load("https://booking.resdiary.com/widget/Standard/SeasonsRestaurant/6323?include.jquery=false");
})
</script>

<div id="rd-widget-frame" style="max-width: 600px; margin: auto;"></div>
```

8. Integration of generated code

Please send the iframe code to fastbooking support team depending on your region

Asia (WebSupport-Asia@fastbooking.net)

North Europe (WebSupport-France@fastbooking.net)

South Europe (WebSupport-italy@fastbooking.net)

OR

Log in to the your back office

-> go to the restaurant page

-> scroll down until you see the Restaurant Booking Form Options

-> Select Resdiary Widget

-> copy/paste the iframe code

Restaurant booking form options

Enable Restaurant Booking form

Select Restaurant form type

ResDiary widget

Resdiary Widget code

```
<iframe src="https://booking.resdiary.com/widget/Standard/SeasonsRestaurant1/6323" allowtransparency="true"
frameborder="0" style="width:100%; border:none; max-width: 540px; height: 640px; "></iframe>
```

Please paste here the HTML code provided by ResDiary. Only the iFrame URL will be taken into account, any other HTML will be ignored.
