

How to create a booking Widget for your Sofitel Minisite?

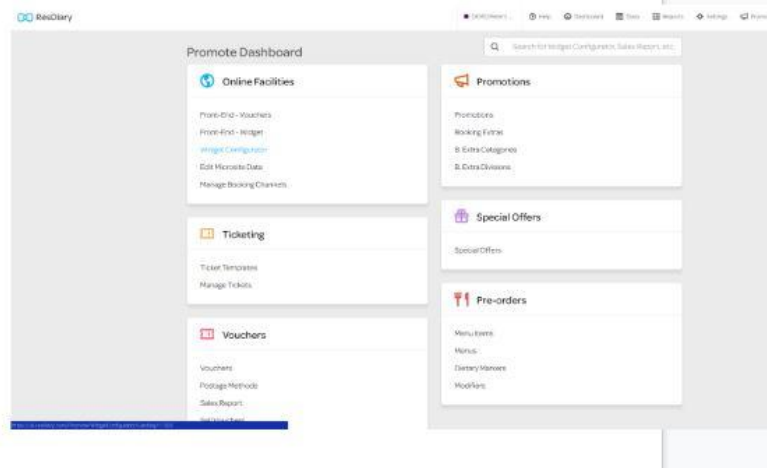

You can see a live example of the final widget [here](#)

NB: All the guide below require a **Manager** access to the diary.

1- Open your diary, go to the **Promote** section

2- Click on **Widget Configurator** in Online Facilities

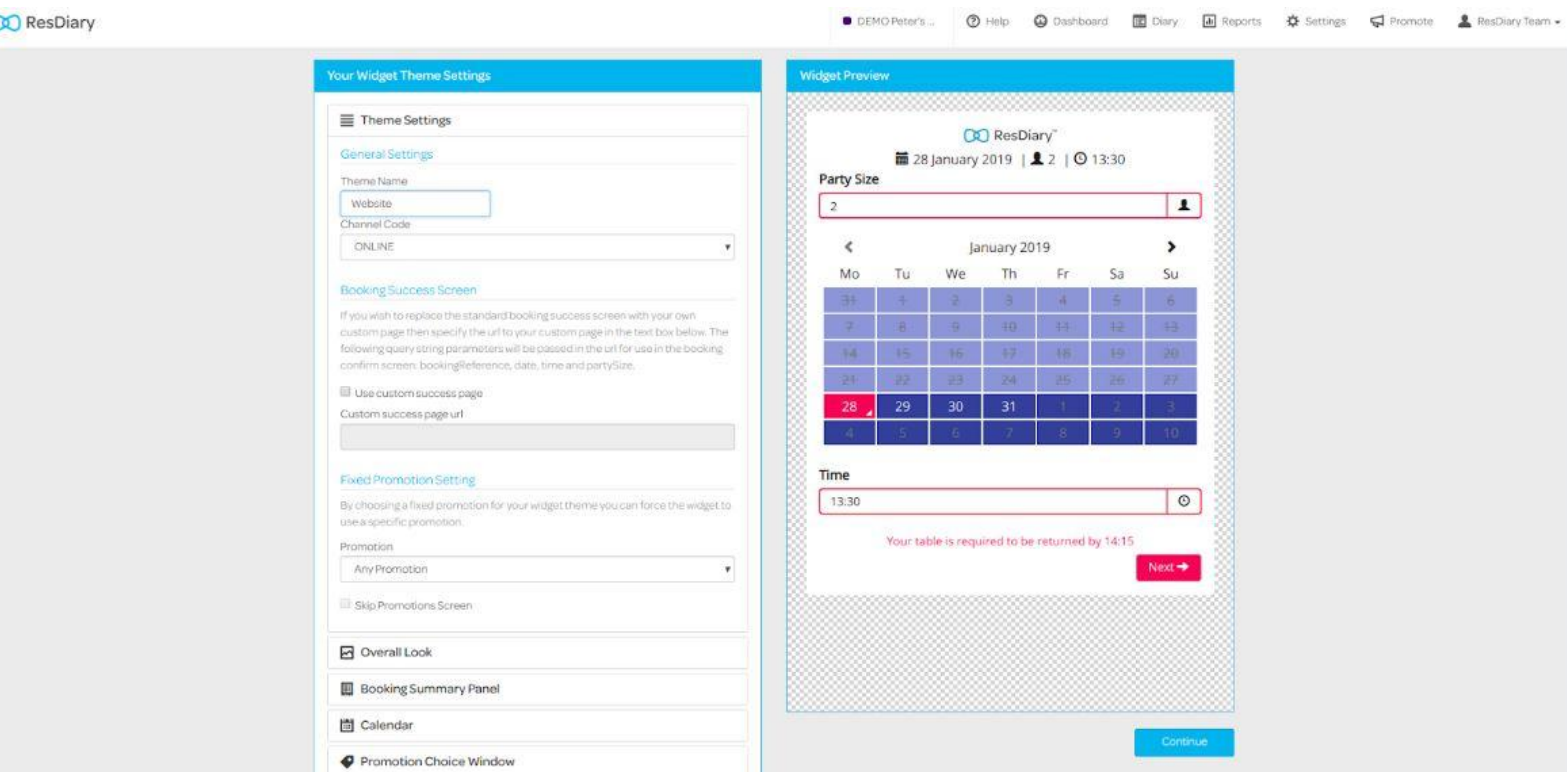

3- Click on **Create New Theme** then Select **'Standard'** widget

4- Rename the New widget **'Website'** to be able to identify it later ; leave the channel to **ONLINE**

5- Edit the ResDiary's widget default template as following :

NB: You can copy and paste the colours codes from this .pdf

In order to respect the graphical charter of your brand please apply the colors mentioned below

6. Click on **Continue** and select the **Standard** layout

ResDiary

Seasons Resto

Standard

This standard widget looks simple at first, but through the widget booking process from selection of date, time and party size through to custom details and promotion selection, the response which means it actually requires and adapts itself to look great on any device.

Field Set

Field sets have fixed elements, allowing you to embed in your fixed element sidebar.

New Language

This new language widget is designed to be extremely easy to use and integrate into your website.

New Format

This new format widget is perfect for using space on your website to connect existing customers to select date, time and party size before being redirected to your website booking.

Standard Three Months

Standard Three Months is best suited to standard widget, however given the calendar as it is month view, it's responsive, which means it automatically adjusts itself to look great on any device.

7. Get the code to embed in the website :

Select the link of the widget as per the red square beside (from https to the end of the 4 digits code, excluding '?')

Copy the link and replace instead of **'widgetwidgetwidget'** in the following code :

```
<iframe src="widgetwidgetwidget"
allowtransparency="true" frameborder="0"
style="width:100%; border:none; max-width:
540px; height: 640px; "></iframe>
```

Export Your Widget

Include jQuery

Note: If you do not include a reference to jQuery and JQueryUi above the widget on your page, the widget will not load correctly.

Copy and paste the code below into your website to use your custom widget

```
<script type="text/javascript" src="https://booking.resdiary.com/bundles/jquery.js"></script>

<script type="text/javascript">
$(function() {
  var widgetFrame = $("#rd-widget-frame");
  widgetFrame.load("https://booking.resdiary.com/widget/Standard/SeasonsRestaurant/6323?include.jquery=false");
})
</script>

<div id="rd-widget-frame" style="max-width: 600px; margin: auto;"></div>
```

8. Integration of generated code

Please send the iframe code to fastbooking support team depending on your region

Asia (WebSupport-Asia@fastbooking.net)

North Europe (WebSupport-France@fastbooking.net)

South Europe (WebSupport-italy@fastbooking.net)

OR

Log in to the your back office

-> go to the restaurant page

-> scroll down until you see the Restaurant Booking Form Options

-> Select Resdiary Widget

-> copy/paste the iframe code

Restaurant booking form options

Enable Restaurant Booking form

Select Restaurant form type

ResDiary widget

Resdiary Widget code

```
<iframe src="https://booking.resdiary.com/widget/Standard/SeasonsRestaurant1/6323" allowtransparency="true"
frameborder="0" style="width:100%; border:none; max-width: 540px; height: 640px; "></iframe>
```

Please paste here the HTML code provided by ResDiary. Only the iFrame URL will be taken into account, any other HTML will be ignored.
