RE:CYCLE

Sustainability meets Style

Discover Cape Town in a whole new way with Cape Grace's exclusive RE:CYCLE bicycles by Vélosophy, crafted from recycled Nespresso capsules. This unique offering combines sustainability, design, and adventure, inviting guests to explore the city's vibrant landscapes on two wheels. As the first hotel in South Africa to offer this innovative experience, Cape Grace invites guests to enjoy an eco-conscious way to discover the beauty of the Mother City.

**Book your bicycle via our Concierge Desk located on the ground floor
or via capegrace.concierge@fairmont.com**

EXPLORE THE CAPE

Cape Grace has a fleet of 10 uniquely named bicycles—Grace, Two Oceans, Seal, Mermaid, Penguin, Big Wheel, Speedy, Scuba, Sharkie, and Breeze—offering a fun and eco-conscious way to discover the beauty of the Cape.

Each booking includes a helmet for safety, a detailed map for navigation, and secure chains and locks—perfect for exploring at their own pace and making spontaneous stops along the way. Before heading out, guests will complete a quick indemnity form and provide a contact number for seamless communication and peace of mind during their journey. For safety, the bicycles are to be returned before sunset each day. All bicycles and helmets are meticulously cleaned and sanitized after each use, offering guests the ultimate combination of convenience, comfort, and care.

Together, Cape Grace, Nespresso, and Vélosophy RE:CYCLE demonstrate that even the tiniest act, such as recycling a coffee capsule, can kickstart a powerful ripple of reinvention. From capsule to creation, the journey is *Endlessly Recyclable. Infinitely Beautiful.*

About the Vélosophy & Nespresso Partnership

Swedish lifestyle brand Vélosophy has partnered with Nespresso to use aluminium recycled from Nespresso coffee capsules in the manufacturing of their limited edition RE:CYCLE bicycles. Vélosophy has crafted their RE:CYCLE bicycles with 95% recycled aluminium in a perfect marriage of sustainability and design. The vivid colour of the bicycle frame is inspired by Nespresso's "Ice Leggero", while the bell is modelled on the iconic shape of the Vertuo capsule. The steam-bended oak carrier basket includes two cup holders, for coffee-on-the go.
