

Environmental Policy

We at *Mercure Dubai Barsha Heights Hotel Suites & Apartments* are committed for the protection of environment through efficient energy, water & waste management. We are conscious of our responsibility towards creating, maintaining, and ensuring clean and unpolluted environment for sustainable development. We are actively involved in Planet 21 Initiatives of Accor Brand standards.

We take following actions to support the above commitment:

- Comply with Environmental laws and regulations with additional measures considered necessary,
- Minimize our waste by reviewing the purchasing practices and segregate waste to reduce, re-use & recycle the resources consumed by our business wherever possible.
- Provide training for all employees & communicate with suppliers & guests to raise awareness about environmental policies & minimize carbon footprint.
- Implement energy, water and resource conservation programs through innovation and applying best practices.
- Establish targets or objectives to measure the continual improvement in our environmental performance.
- Make this policy available to the public through website and notice boards for our associates.
