DR. BARBARA
STURM

Dr. Barbara Sturm, a visionary in scientific cosmetics, is renowned for her innovative approach to anti-aging skincare and her expertise in anti-inflammation. A German-born physician, she began her career in orthopedics, where she revolutionized inflammation treatments before transitioning to aesthetics. Creator of the famous “Vampire Facial”, she quickly became the architect of flawless complexions, coveted from Hollywood to New York.

Free from mineral oils and harsh components, these products preserve the skin’s natural harmony, exemplified by her first creation, the iconic MC1 Cream, which was acclaimed from its inception. This cream combines the power of natural ingredients with modern scientific advancements.

Through her molecular cosmetics, Dr. Barbara Sturm has established an approach based on three essential pillars: anti-inflammation, optimal hydration, and telomere activation. Her rituals, marked by precision and simplicity, blend gentle cleansing, targeted serums, and meticulous hydration.
