

For the Meat Lovers

The John Stone name is known for the craft of dry ageing the finest beef.

Grills @ Chill'O presents a special steak menu using John Stone Irish beef. Raised on small farms in Ireland, John Stone cattle are fed with 100% hormone-free, natural, diet of grass and herbs. The beef is then matured using time-honored dry-ageing methods (48 days dry aged) to intensify its flavors and give them exceptional tenderness.

JOHN STONE

Suppliers of quality Irish produce
