MGallery olarak hikayesini yazmak, hepimizin görevi.

Sürdürülebilirlik girişimlerimiz, tedarikten istihdama, atıklardan yerel etkiyi artırmaya kadar yaptığımız her şeyi kapsar.

Dünyamıza daha nazik olmak adına Otelimizde yaşadığımız deneyimden tek kullanımlık plastik banyo malzemelerini çıkarıyoruz.

Enerjiden ve sudan tasarruf etmek için çarşaflar her konaklamanın ardından değiştirilir. Konakladığınız süre içinde çarşaflarınızı değiştirmemizi istiyorsanız bu kartı yatağın üzerine koyun.

Havluları yeniden kullanarak dünya için olumlu bir etki yaratıyoruz. Havlunuzu tekrar kullanmak için lütfen yeniden havlu askısına geri koyun. Değiştirilmesini istiyorsanız lütfen banyoda yere bırakın.

Bu küçük değişiklikler ile hep beraber daha aydınlık bir gelecek yaratmak dileği ile.

MEETING ROOMS

There are 2 meeting rooms in our hotel equipped with the latest technology that can offer flexible solutions for needs. These halls of ours host meetings, events and invitations with different seating arrangement options.

HISTORICAL ÇEŞME HAMMAM

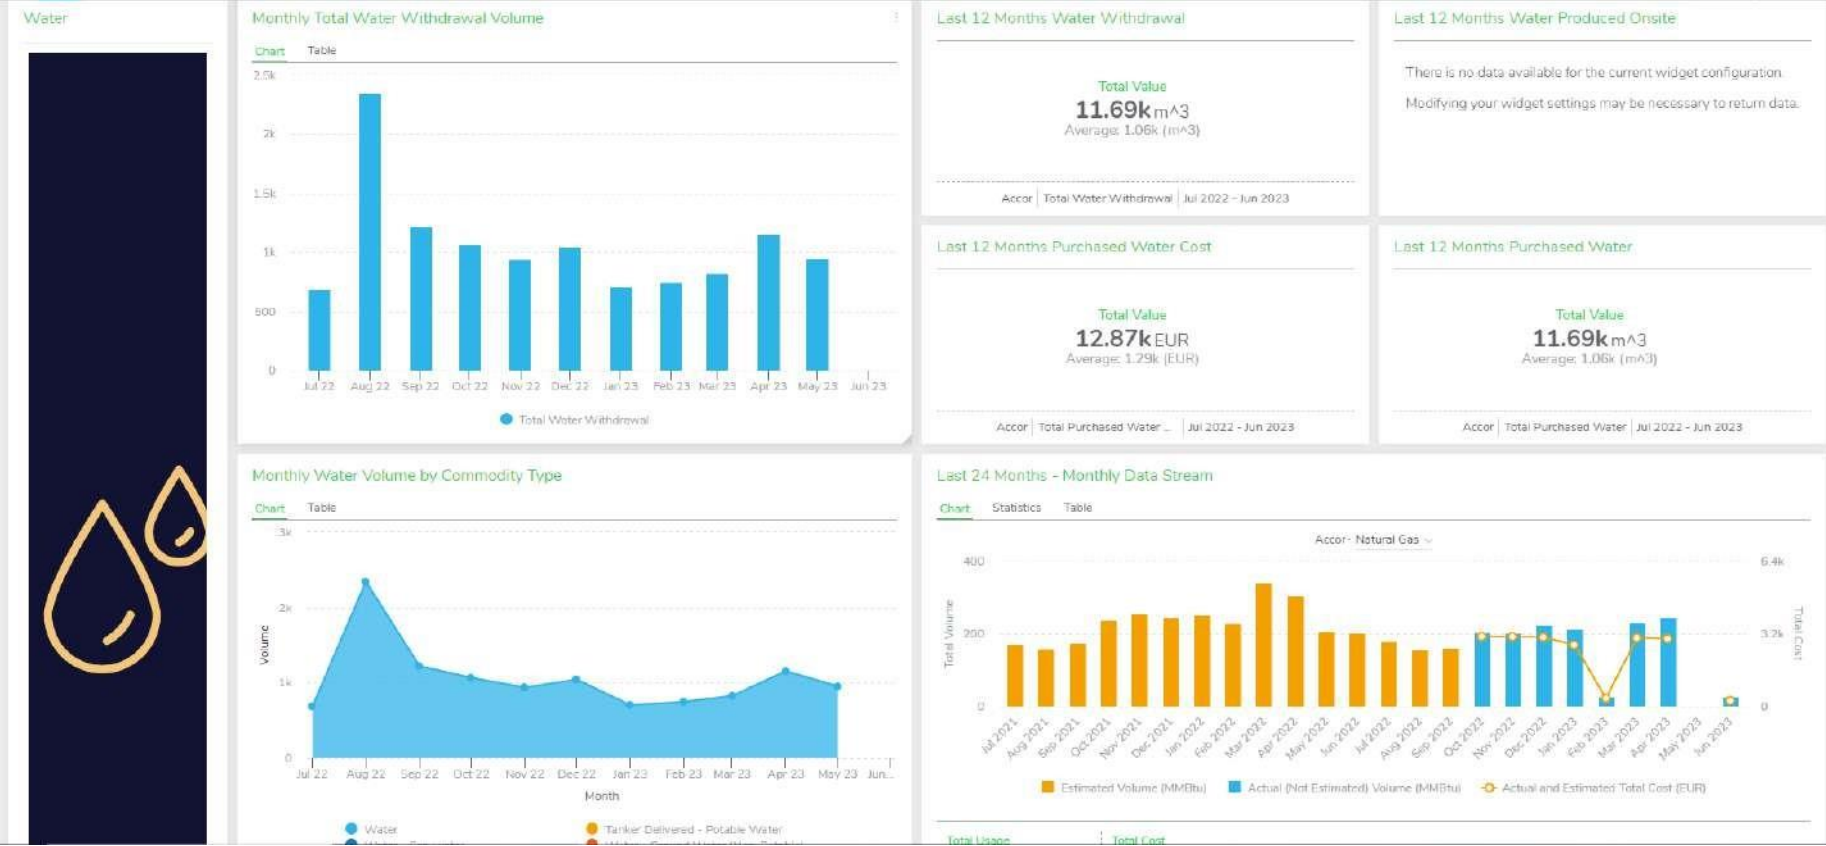

the Historical Fountain Bath, built by Captain-i Derya Kaymak Mustafa Pasha in the Tulip Era at the end of 1720, was used alternately by men and women during his period and continued to function until its original texture was preserved and restored in 2017. The Historical Çeşme Bath, which was reopened by The Galata Istanbul Hotel MGallery in accordance with its original style, continues the "300-year-old tradition of the goodness of water".

2. Reducing the Environmental Impact

WATER MANAGEMENT

As The Galata Istanbul Hotel MGallery, we care about water, which is our most important natural resource, and we take the necessary savings and control measures. We carry out our daily, monthly and annual water consumption analyses via GAIA 2.0 (Accor Hotels Sustainability & Technic Platform). We are able to track our analyses according to the total and the number of guests.

2. Reducing the Environmental Impact

ZERO PLASTIC MANAGEMENT

In accordance with our zero plastic policy, single-use plastics are not allowed in The Galata Istanbul Hotel MGallery. Pet bottled water is not purchased and environmentally sensitive boucle materials are used in all rooms.

WATER MANAGEMENT

In order to save energy and water, we inform our guests by emphasizing the digital catalog and cards in our rooms and the water that will be consumed if the sheets and towels are changed every day.

2. Reducing the Environmental Impact

WATER MANAGEMENT

There are devices called “Perlators “ that filter water in our batteries and provide a mixture with air, giving a more pressurized feeling with less water. Lobby and general area Our batteries and urinals are photocell and have low water consumption data. We have systems to reduce water consumption in general guest and staff areas, guest rooms. Our batteries throughout the hotel are no more than 4-6 liters/minute Toilet siphons are double stage and 2-4 liters, Our showers are 10 liters/minute

2. Reducing the Environmental Impact

ENERGY MANAGEMENT

- **Electricity Usage**

An energy automatic closing system is used in our rooms. Thus, when our guests are not in the room, the electrical system does not work and consumption waste does not occur. There are sensors for lighting in the toilets in common areas, corridors. External lighting is controlled by timers. In Our Rooms Class A, low-consumption Led TVs and Mini-bar refrigerators are used. LED lighting, which is the most economical and long-lasting, has been switched to the use of hotel general lighting, exterior lighting, decorative lighting, office and corridor lighting.

- **Use of Natural Gas**

Natural gas, which is the least harmful to the environment and the most economical fuel among fossil fuels, is used in our hotel. Dec. The most important feature of natural gas is that it is a clean fuel and does not pollute the environment. Jul. When burned, it does not form ash and sulfur compounds and does not cause acid rains. Due to its gaseous state, it burns easily by creating a better mixture with air, so it needs less oxygen than LPG.

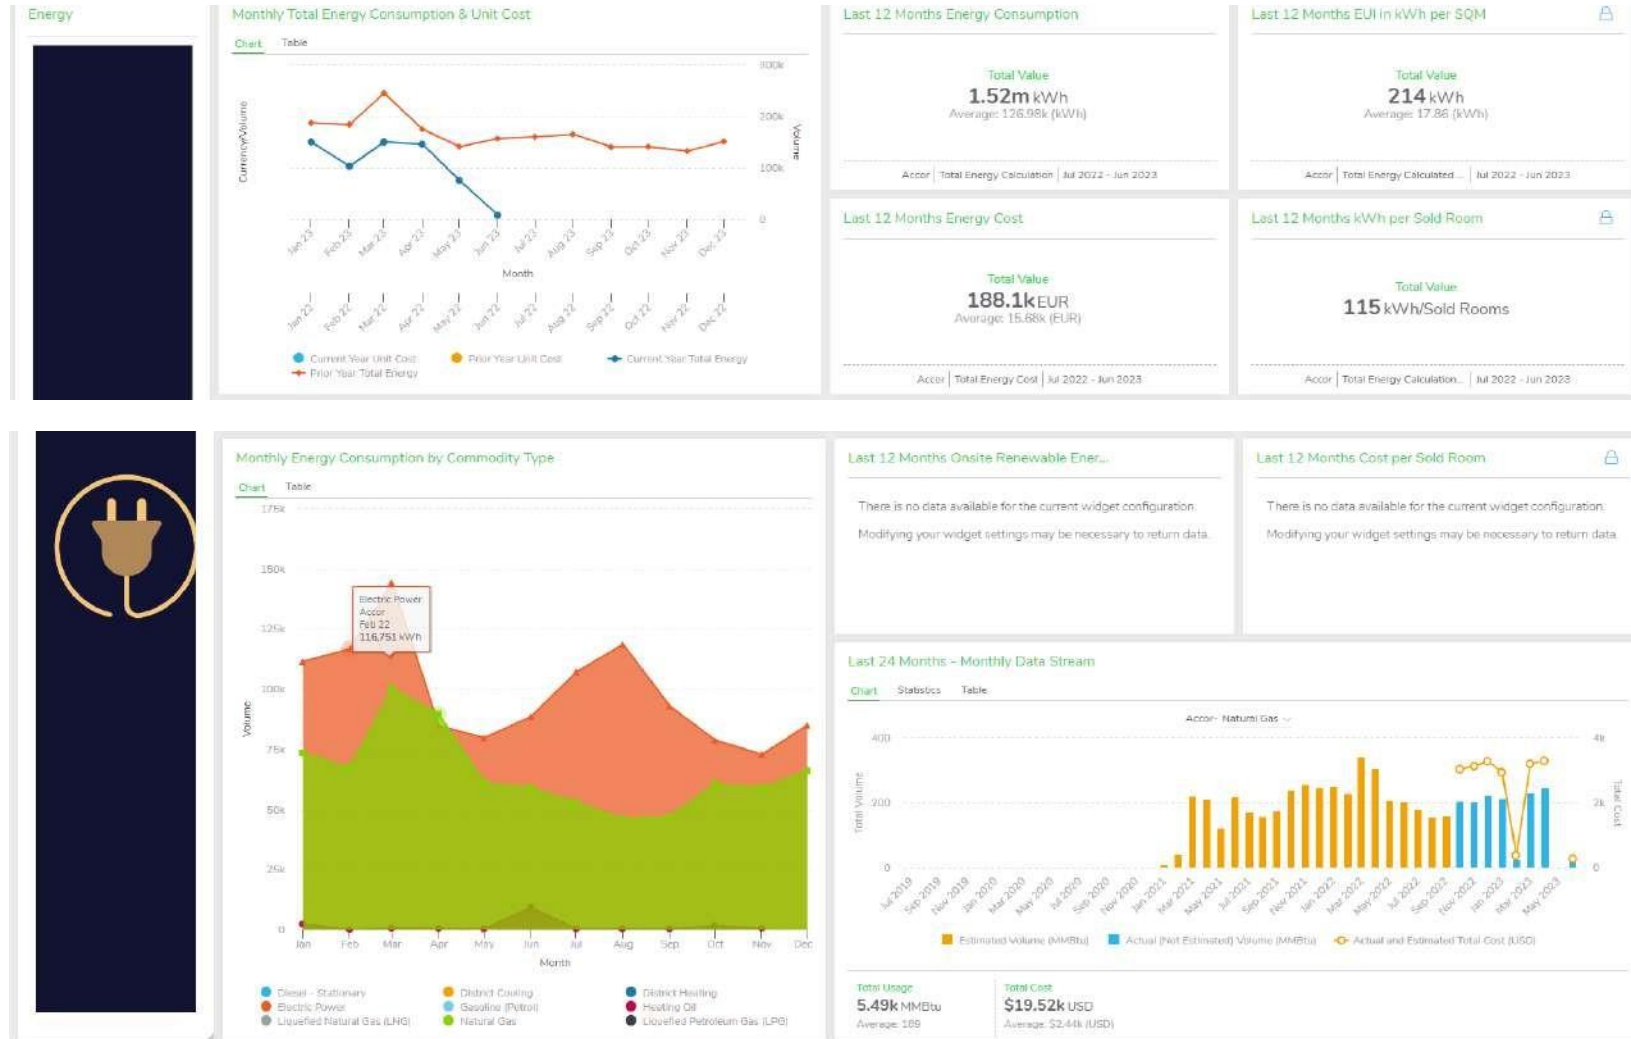

2. Reducing the Environmental Impact

ENERGY MANAGEMENT

We take care to use the highest energy-saving systems in our hotel. Systems that adopt energy saving along with quality are our priority.

The energy consumption in our building is monitored daily, monthly and annually. The system we use most effectively for this is GAIA 2.0.

2. Reducing the Environmental Impact

WASTE MANAGEMENT

In accordance with the Zero Waste Regulation enacted by the Ministry of Environment and Urbanization of the Republic of Turkey, we were entitled to receive the Zero Waste Certificate by establishing the Zero Waste Management System in our hotel in 2023.

- **Waste Oils**
- Vegetable waste oils released by the food and beverage units and the kitchen department in our hotel are regularly received by a contracted waste transportation licensed company that arrives at certain periods with a special waste collection vehicle and delivered to companies that have a special waste oil disposal license from the Ministry of Environment and Urbanization.

3. Personnel and Working Life

WE ARE ALL HEARTISTS™

PROMOTION OF CULTURAL HERITAGE

The Historical Cesme Hammam, which is estimated to have been built by Kaymak Mustafa Pasha, who was a Captain in the Ottoman Navy during the Tulip Era, in the late 1720s, is the only bath used alternately by men and women, also called the “Kuşluk Hamami”, is a district bath of the plan type. Although the historical Çeşme Bath lost its originality, it continued its function as a bathhouse until the restoration. The building was restored in 2017 according to the project prepared by Master Architect Tulay Bal. The parts of the structure that have disappeared in history have been completed with the original construction technique and material, and the continuation of the transmission of history that has been going on for 300 years has been ensured along with the function of the hammam.
